Introduction to FactWise

Introducing FactWise

FactWise is a complete **end-to-end quoting, sourcing and procurement solution** that modernizes and simplifies the interaction between suppliers and internal stakeholders while integrating into the ERP and accounting systems

FactWise is a feature rich, modular platform that addresses specific needs for the procurement platform

Pre-Rfx

Rfx Events to Quote & PO

PO to Pay

Additional Features

FactWise is the best integrated solution on this planet

Ensure maximum profitability by auto-calculating landed cost (BCD, SWS, NRE, Clearance etc.) accurately

Send requests to 100 vendors and 3000 items within a BOM with one click

Manage complex BOMs by seamlessly managing alternate items and n-level sub-BOMs

Create quotes automatically by automating the VA, NRE and Engineering costs per BOM

Integrated Requisitions and POs with any ERP allows users to create POs with the cheapest landed costs with clicks

End-to-end quoting & procurement process for Turnkey EMS/EDM solutions managed by FactWise

Significant impact,
instantly

FactWise provides 3 main benefits leading to 15x – 20x ROI within the first year

Using Factwise, a modest 5% - 10% savings on spend, and 1% - 5% increase in revenue is easily achievable increasing profits by up to 14% annually

Profit
Increase
(3% - 14%)

Top line revenue: ₹1000 Cr

Avg. increase in revenue due to	}	1% - 5%
i. Increased competitive vendor quotes:		
ii. Eliminated manual errors		
iii. Reduced delays		

Total increase in revenue: ₹10 Cr - ₹50 Cr

Direct materials spend: ₹500 Cr - ₹900 Cr

Conservative savings %: 5% - 10%

Total cost savings: ₹ 25 Cr - ₹ 90 Cr

Total profit increase: 3% - 14%

By providing insightful data at your fingertips and allowing users to aggregate spend and anchor prices, FactWise can help reduce spend up to 25%

Dynamic Analytics

Real time update on pricing data to make your bids smarter

01

02

Spend aggregation

Reduce spend by aggregating spend across events & users

Anchoring

Allow buyers to anchor sellers on pricing to drive best prices

03

FactWise has the best user adoption in the procurement industry

Increased
efficiency
(40% gain)

Use automation & AI to increase efficiency by 40%

Simple, easy system built specifically for the users

Get relevant insights at the right time to make decision making simple

40% average increase in efficiency can be gained by leveraging automation and smart analytics

FactWise enables organizations to begin saving in less than 2 weeks

Instant time
to value
(<2 weeks)

Begin using the platform from Day 1

Integrate easily with other systems using
our open APIs

No admin setup required to create events
or POs

FactWise intuitive interface, template architecture, and open APIs allows for instant usage

How we help you
achieve this impact

What makes FactWise distinctive?

**Make better
decisions faster**

Distinctive analytics at every step (historical analytics, custom analytics, dynamic analytics, item analytics, vendor analytics, Rfx analytics etc.)

**Do everything,
efficiently**

Manage tremendous complexity with ease (1000+ items with 50+ vendors in one event, infinite sub-boms with alternate items, combining multiple requisitions, end to end lifecycle tracking etc.)

**Even you can
do it**

Completely self customizable features with no code architecture (custom formulas, custom analytics, custom approval hierarchies, custom forms, custom workflows)

FactWise deployment model prioritizes client happiness, always

Initial setup support

- In-person numerous buyer trainings
- Several vendor training for onboarding sessions
- Integration support to ERP provider
- Open API instant connection

On going support

- Integrated app with help and support that has videos, step by step guide, and FAQs
- Buyer re-training on request
- Ongoing vendor training
- 1 on 1 buyer and vendor support
- Upgrades to ensure Tricolite continues the state-of-the-art software solution
- Auto scalable cloud infrastructure

FactWise creates a transparent & centralized procurement ecosystem by connecting all stakeholders to improve process efficiencies and insights

Chief procurement officer

- ▶ Increased visibility over all procurement activities and processes
- ▶ Unlock savings potential driven by data insights and AI
- ▶ Full procurement data consolidation

Accounting and finance team

- ▶ Automated invoicing & payments reconciliation
- ▶ Custom analytics and reporting to maximize cash flow
- ▶ Full integration into ERP and accounting system

Operational procurement team

- ▶ Supplier sourcing and offer negotiation driven by AI and advanced analytics
- ▶ Easy-to-use and highly efficient ordering and tracking platform

External suppliers

- ▶ Access to new customers
- ▶ Simplified order submission, processing, tracking, and buyer communication
- ▶ Automated documentation

Leveraging our best-in-class technology improves procurement governance, leading to significant savings and increased productivity

Savings

25%

More savings by leveraging fact-based negotiations and getting access to new suppliers.

Efficiency

40%

Increase in FTE productivity achieved by streamlining ordering process via automation.

Governance

60%

Reduction in maverick spend due to improved compliance and oversight.

Compliance

93%

Increase in payment compliance, maximizing cash flow and reducing penalties.

Global presence & proven impact

We engage clients in competitive industries where physical products are created

Pharmaceuticals

Electronics

Telecom

Chemicals

Automotive

Industrial Machinery

Food & Beverage

Hospitality

We engage with clients that have some of the most complex procurement requirements globally

In addition, we work with 2 Fortune 50 companies and one of the largest tyre manufacturers in the world

Quotes from some of our clients

Comprehensive

The Factwise app is a great consolidation of features that provides the ability to send RFX's, assess pricing, allocation, PO & AP processing, etc. all in one app. Its an extremely efficient way to manage the materials buying process all under one application.

VP of Procurement
at Fortune 50
company

Customer first approach

Factwise has significantly improved procurement digitalization and automated quotation processes, enabling faster workflows, enhanced transparency, and data-driven decision-making @Syrma SGS. We like the platform's efficiency, seamless integration, and actionable insights, while suggesting enhancements like industry-specific solutions and advanced analytics. The solutions team is always listening to the voice of the customer and adapting the solution to serve their needs. With plans to expand into sales funnel tracking, Factwise is well-positioned to deliver comprehensive business solutions by integrating procurement, sales, and monitoring capabilities..

Kapil Maini
Chief Procurement Officer
Syrma SGS

Flexible

Factwise streamlines sourcing processes by automating non-value-adding activities, boosting efficiency and productivity. Their customizable GUI and dashboards empower users with tailored insights for smarter decision-making.

Sunil Kumar Injeti
Vice President
Spark Minda

Additional quotes from some of our clients

End-user focus

FactWise has done a great job at understanding the users. The thoughtfulness in the way it is created is impressive. Even the smallest details have been thought off to make sure the user experience is excellent. Our user adoption and attention to detail are the primary reasons for FactWise's success at our company

Sr. Director of
Procurement at
Fortune 50 company

Game-changing analytics

FactWise streamlined our quoting process, replacing manual tasks with efficient vendor and client interactions. Customizable and adaptable, it tailored to our complex workflow perfectly. Analytics stole the spotlight, offering diverse views for nuanced decision-making. FactWise harnessed transactional data, creating potent historical analytics for enhanced client value. Beyond tools, their attentive team unlocked the product's potential, ensuring personalized support.

Easy to customize

FactWise has enabled us to make data driven decisions in procurement. This has increased the efficiency and compliance in the team and more importantly led to cost savings which is extremely important in our industry. Their standout analytics throughout the platform and the ability to easily customize the requirements based on our needs are absolutely nothing that we have seen before.

Automation

FactWise excels in analytics-- their AI innovation transforms analysis into a user-friendly experience. Breaking free from old formats, we've minimized Excel dependency, witnessing a data-driven revolution that elevates our operations and business decisions. The proactive, attentive team ensures seamless implementation—a standout feature in this limitless solution.

Kinjal Shah
CEO
Gem Corp

Integrated Efficiency

Amkette sought an automated solution for their complex sourcing operation, focusing on procurement and vendor analytics. Initially designed for manufacturing, Factwise adapted swiftly, engaging Amkette's vendors. The platform's ongoing customization, including a built-in chat system, eased China communication challenges. Amkette aims to fully integrate Factwise into their operations this year.

Varun Bapna
Co-owner
Amkette

User Experience

Our manufacturing company uses the traditional standard ERP system. With Factwise integrating with our ERP, our purchasing has become informed, organized, and effortless. The intuitive and sleek UI was a standout feature. Factwise has been a game-changing addition for us.

Vivek Mehta
CEO
Driplex

A Resistor - 10K Ohm, 0.125W, ...	R001	4	₹ 0.5	₹2.00	...

Key features:

- Create **infinite child BOM's**
- Allow **multiple alternates** for any item within a BOM
- Add **additional overall costs** for any BOM (or child BOM)
- **BOM/Child BOM Level Analysis** for Targeted Insights

Customizable RfQ create and negotiate: sample screenshots

Key features:

- Customizable auto-reminders per event
- Smart warnings to highlight cost savings opportunity
- Conduct **events at scale** (1000+ Items with 50+ vendors)
- Customize request to vendors as per specific needs

RfQ Analytics with adjustable landed costs calculation: sample screenshots

Key features:

- Define **custom formulas** to get final landed cost
- Automatically identify vendors **based on TCO, not just price**
- Create **all POs across multiple vendors** in 1 click

Customizable quote calculator with robust approval hierarchy: sample screenshots

[illegible]

Key features:

- Custom cost formulas to account for all costs
- Customizable approval hierarchy to ensure awareness
- Add customizable overall, BOM level and item level costs

PO creation with open APIs and self-customizable approvals : sample screenshots

The screenshot displays the 'PO Review' interface. At the top, it shows the PO number 'New PO - Draft - 1088 Co.' and the PO date '2024-08-12'. Below this, there are sections for 'Vendor details' and 'PO details'. The 'Vendor details' section includes the vendor name 'Dharani', address '23rd Street, Pillay House, Chennai 600014, India', and contact information. The 'PO details' section includes the PO number '1088 Co.', PO date '2024-08-12', and PO type 'Purchase Order'. A table below these sections shows the PO items, with one item 'Test Item 004' having a quantity of 100 and a unit price of ₹11.00. The 'PO overall details' section shows the PO date '2024-08-12' and the PO type 'Purchase Order'. A 'Summary' section at the bottom right shows the total amount '₹1,100.00' and the total net cost '₹1,100.00'. Below the screenshot, a flowchart illustrates the approval process. It starts with 'Dharani' (FactWise) as the initial approver. The flow then branches to 'Devanshi' (FactWise) and 'Udit Gogia' (FactWise). 'Devanshi' has a condition 'Vendors is preferred' and 'Udit Gogia' has a condition 'Vendors is non-preferred'. Both lead to 'Prashant Patil' (FactWise) as the final approver. The flowchart also includes a 'Terms & Conditions' section with a 'FactWise Default' button and a 'Normal' button.

Key features:

- Ready made integration with any 3rd part ERP
- Create POs directly without creating a Rfx
- Build custom multi-stage approval hierarchy

Dual side PO management including changes in deliver schedules and PO amendments: sample screenshots

The screenshot displays two overlapping screenshots of the FactWise PO management interface. The top screenshot shows the 'Revise PO' screen for a PO with ID P0001009, dated 23 May '24. It includes fields for 'FactWise' (Tax ID: 254741945) and 'Didac International' (Address: 152, Baskin Building, Office No. 25, 2nd Floor, Narayan Chauri Street, Mumbai, Maharashtra, 400003, India). The bottom screenshot shows the 'PO Summary' screen for PO ID P0001054, Event ID E000239, Vendor Kordsa, Entity FactWise, and Status Ongoing. It lists two items: 'Barcode scanners' (2000 Pieces(s) at ₹2,000.00) and 'Network switches and rout...' (200 Pieces(s) at ₹2,350.00). A tooltip indicates 'Requested quantity needs to be less than the PO total quantity'.

Key features:

- Allow vendor to provide **real time update on delivery schedule**
- Provide buyers opportunity to **rescind or cancel POs**
- Mandate vendors to **accept/reject POs** and all its terms

Adjustable historical & customizable analytics: sample screenshot

Key features:

- Pre-created graphs with flexible filters for users to review
- Ability to create your own custom dashboard for viewing
- Self-create graphs instantly and save them for future use
