INTRODUCTION TO FactWise

Proposal Document for Balkrishna Industries Limited (BKT)

Jan 17th, 2025

CONFIDENTIAL AND PROPRIETARY
Any use of this material without specific permission of Fact Wise Tech Inc. (FactWise) is strictly prohibited

What if your costs
reduced by 5%?

FactWise addresses the biggest pain points for procurement teams

Challenges

No centralized audit trail of all procurement actions

Lack of technology is one of the top 4 reasons for regulatory and contract lawsuit concerns

Tedious effort to collect and analyze vendor responses

Over 50% time is spent on collecting, standardizing and analyzing vendor responses

Unable to maximize savings due to lack of actionable insights

2 of 3 POs are made without analyzing purchase order history or holistic vendor data

Enormous amount of time spent creating RfQs and tracking items

Over 35% of the team's time is spent on simple, repetitive requests

About FactWise

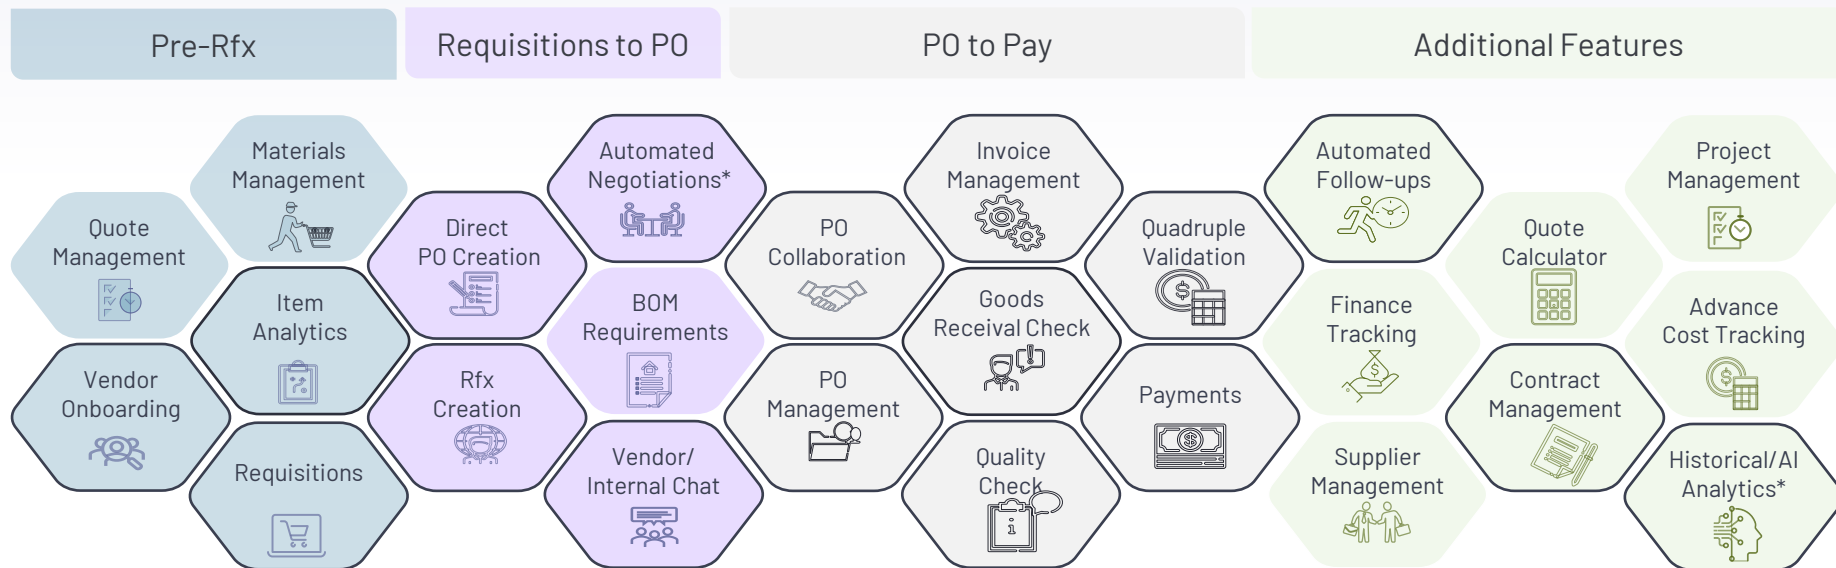

Introducing FactWise

FactWise is a complete **end-to-end procurement solution** that modernizes and simplifies the interaction between suppliers and buyers while integrating into the ERP and accounting systems

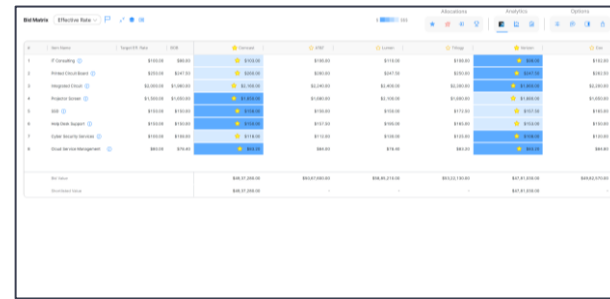

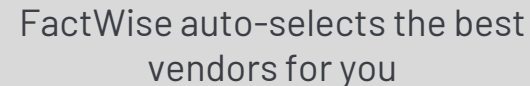

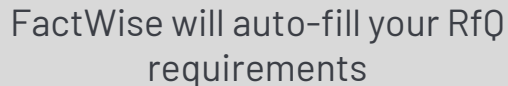

FactWise is a feature rich, modular platform that addresses specific needs for the procurement platform

 Recommended for BKT

Leverage LLM on your own FactWise data

Coming up: FW Auto Negotiate, FW Auto Create

FactWise end-to-end solution excels across the entire procurement journey

1	Analytics & insights	Create easy, intuitive real-time customized reports, track your progress, and identify optimization opportunities in your procurement organization
2	Requisitions	Clone or create new requisitions in seconds and track requisitions all the way while easily tagging requests to departments
3	Sourcing	Unlock the power of Artificial Intelligence to create events and purchase orders within minutes and connect to new suppliers seamlessly
4	Negotiation	Get proactive data insights and industry best practices to help you achieve the best outcome for you
5	Goods Tracking	Improve end to end goods tracking transparency and simplify communication among stakeholders
6	Payment	Leverage FactWise's third-party integrations to automate payment reconciliation and optimize cash flows

A large blue triangle pointing to the right, located on the left side of the slide.

Why FactWise?

FactWise enables procurement teams to achieve better outcomes faster

Solutions

Make more holistic decisions that lead to increased savings

Customizable landed cost analytics and historical performance analytics integrated with contract prices

Focus time on strategically building vendor relationships

No more vendor follow-ups required to fill RfQs or updating latest company information

Exceed client and internal vendor requirements easily

Identify and track ESG compliant vendors, MSME vendors or Indian vs non-Indian vendors for initiatives like Make in India

Loved by all levels within the organization

Get end to end transparency and your own custom reports in seconds as well as reduce time to create quotes by 60%

What makes FactWise distinctive?

**Make better
decisions faster**

Distinctive analytics at every step (historical analytics, custom analytics, dynamic analytics, item analytics, vendor analytics, Rfx analytics etc.)

**Do everything,
efficiently**

Manage **tremendous complexity with ease** (1000+ items with 500+ vendors in one event, infinite sub-boms with alternate items, combining multiple requisitions, end to end lifecycle tracking etc.)

**Even you can
do it**

Completely **self customizable features with no code architecture** (custom formulas, custom analytics, custom approval hierarchies, custom forms, custom workflows)

FactWise deployment model prioritizes client happiness, always

Initial setup support

- In-person numerous buyer trainings
- Several vendor training for onboarding sessions
- Integration support to ERP provider
- Open API instant connection

On going support

- Integrated app with help and support that has videos, step by step guide, and FAQs
- 24 * 7 buyer support
- Buyer re-training on request
- Ongoing vendor training
- 1 on 1 buyer and vendor support
- Upgrades to ensure BKT continues the state-of-the-art software solution
- Auto scalable cloud infrastructure

To ensure success for BKT, we will have the following structure to provide support

Escalation POC

Stawan, the founder of FactWise, will be the main point of contact. All new requirements and existing requirements will be handled by him directly.

Escalation
POC
Stawan

Specific POC

Shubhank will make sure deployment and training goes smoothly and will be involved in day to day tasks. Mirish will be the POC for new requirements.

Post-deploy
POC
(Shubhank)

Pre-deploy
POC (Mirish)

Support Team

We have a cross-functional team of 15+ experts in different areas to support BKT in its success.

FactWise provides 3 main benefits leading to 15x – 20x ROI within the first year

Using Factwise, a modest 5% - 10% savings on direct spend is easily achievable which can increase profits by up to 8% annually

Significant
Savings
(5% - 10%)

Top line revenue:	₹1000 Cr
Materials spend:	₹500 Cr - ₹800 Cr
Conservative savings %:	5% - 10%
Total savings:	₹ 25 Cr - ₹ 80 Cr
Total profit increase: 2.5% - 8%	

By providing insightful data at your fingertips and allowing users to aggregate spend and anchor prices, FactWise can help reduce spend up to 25%

Dynamic Analytics

Real time update on pricing data to make your bids smarter

01

02

Spend aggregation

Reduce spend by aggregating spend across events & users

Anchoring

Allow buyers to anchor sellers on pricing to drive best prices

03

FactWise has the best user adoption in the procurement industry

Increased
efficiency
(40% gain)

Use automation & AI to increase efficiency by 40%

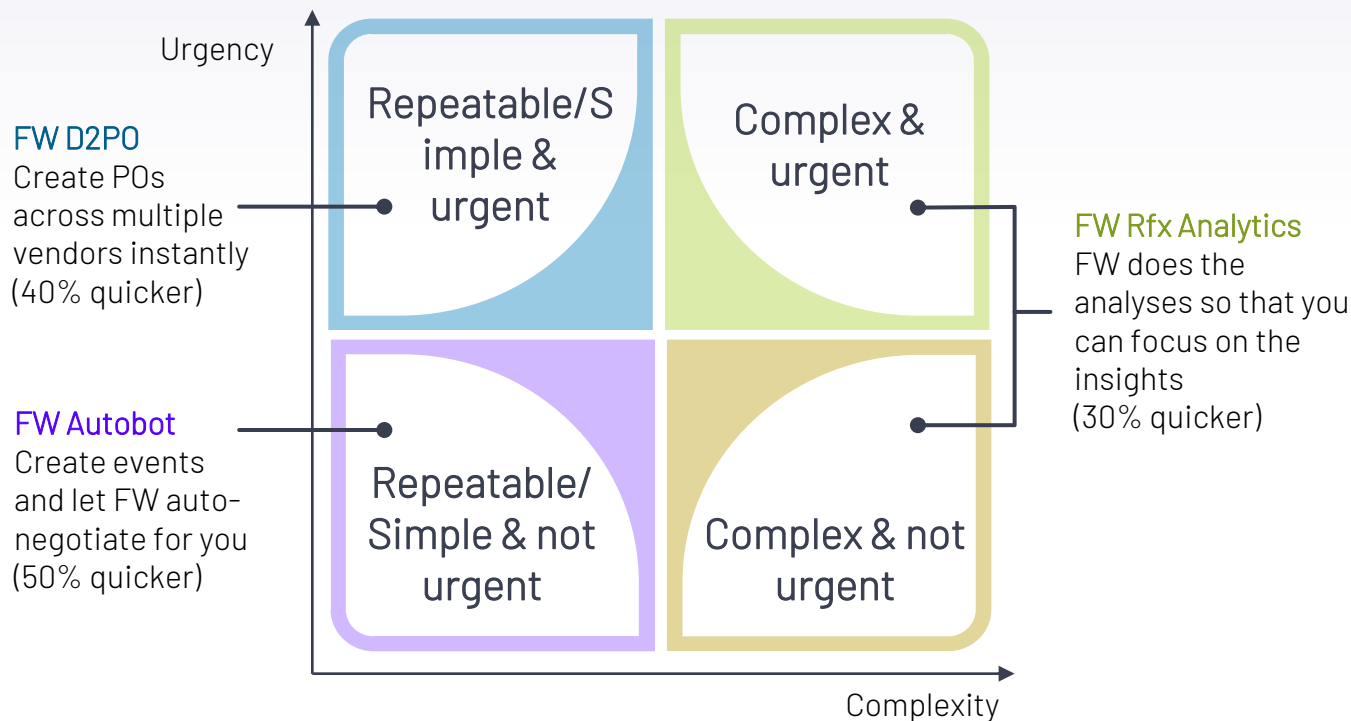

Simple, easy system built specifically for the users

Get relevant insights at the right time to make decision making simple

40% average increase in efficiency can be gained by leveraging automation and smart analytics

FactWise enables organizations to begin saving in less than 2 weeks

Instant time
to value
(<2 weeks)

Begin using the platform from Day 1

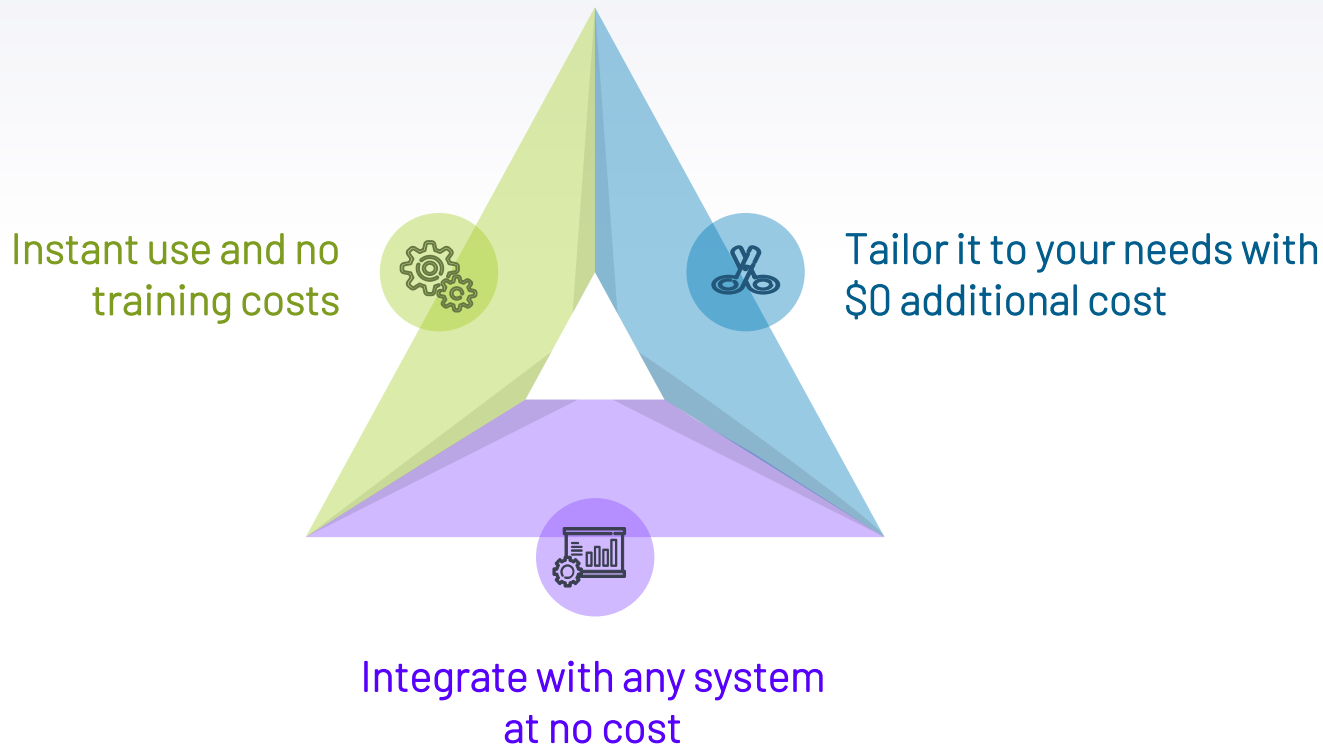

Integrate easily with other systems using
our open APIs

No admin setup required to create events
or POs

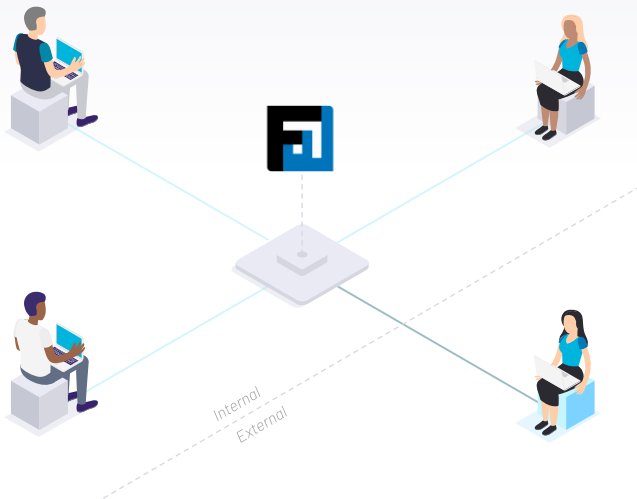

FactWise intuitive interface, template architecture, and open APIs allows for instant usage

FactWise creates a transparent & centralized procurement ecosystem by connecting all stakeholders to improve process efficiencies and insights

Chief procurement officer

- ▶ Increased visibility over all procurement activities and processes
- ▶ Unlock savings potential driven by data insights and AI
- ▶ Full procurement data consolidation

Accounting and finance team

- ▶ Automated invoicing & payments reconciliation
- ▶ Custom analytics and reporting to maximize cash flow
- ▶ Full integration into ERP and accounting system

Operational procurement team

- ▶ Supplier sourcing and offer negotiation driven by AI and advanced analytics
- ▶ Easy-to-use and highly efficient ordering and tracking platform

External suppliers

- ▶ Access to new customers
- ▶ Simplified order submission, processing, tracking, and buyer communication
- ▶ Automated documentation

Leveraging our best-in-class technology improves procurement governance, leading to significant savings and increased productivity

Savings

25%

More savings by leveraging fact-based negotiations and getting access to new suppliers.

Efficiency

40%

Increase in FTE productivity achieved by streamlining ordering process via automation.

Governance

60%

Reduction in maverick spend due to improved compliance and oversight.

Compliance

93%

Increase in payment compliance, maximizing cash flow and reducing penalties.

FactWise provides several features to ensure high governance and compliance

Governance

- Completely **adjustable maker – checker** system at all critical steps
- Historical analytics of **each individual performers** highlighting areas of growth
- Automated **alerts if there are any unexpected deviations** by any individual during the quotation process

Compliance

- Self-customizable **validations throughout the system** for every step of the way
- **End to end digital tracking** of any changes made to the quotes
- Automated **landed cost calculations** to select best vendors for quotes

Opportunities at

Opportunities at BKT

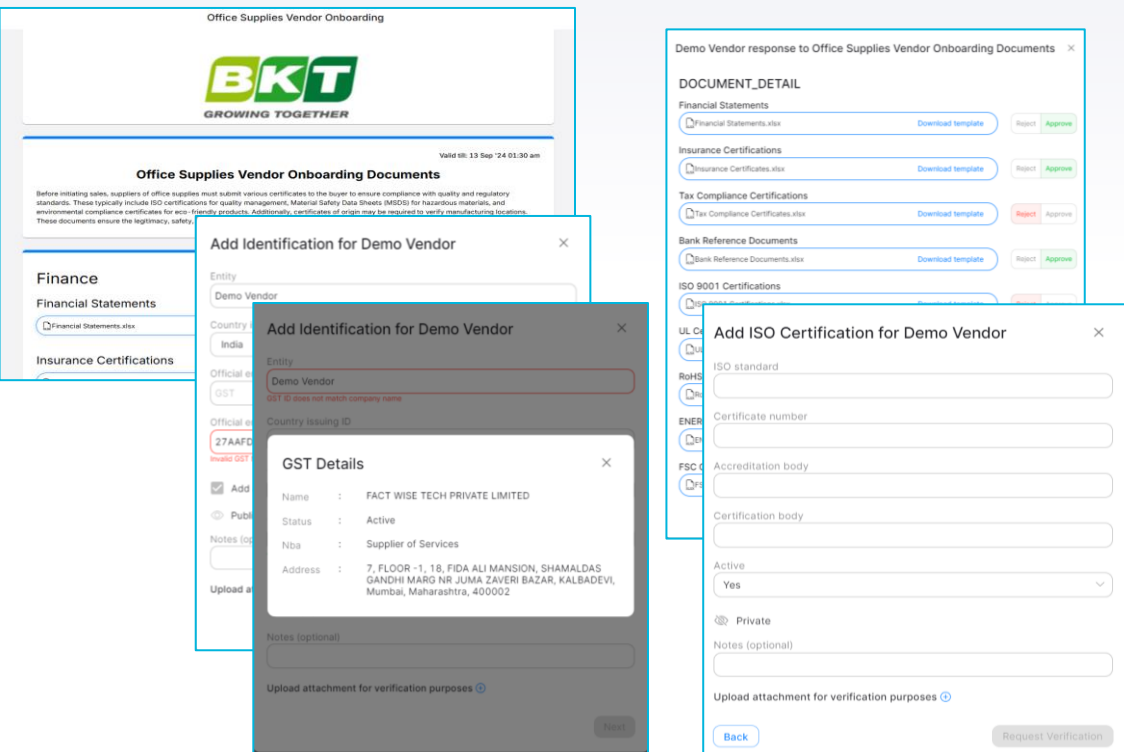

1. Reduce value leakage by ensuring that **best practices** are followed by all junior and senior buyers
2. **Increase savings** by making decisions on automatically calculated landed costs as well as detailed historical performance
3. **Improve timing** of purchasing decisions by analyzing multiple indexes, currency exchanges and the latest news to maximize savings
4. **Holistic vendor management** from onboarding with custom compliance to tracking quotes, POs, invoices and payments

Multi-stage vendor onboarding: sample screenshots

Key features:

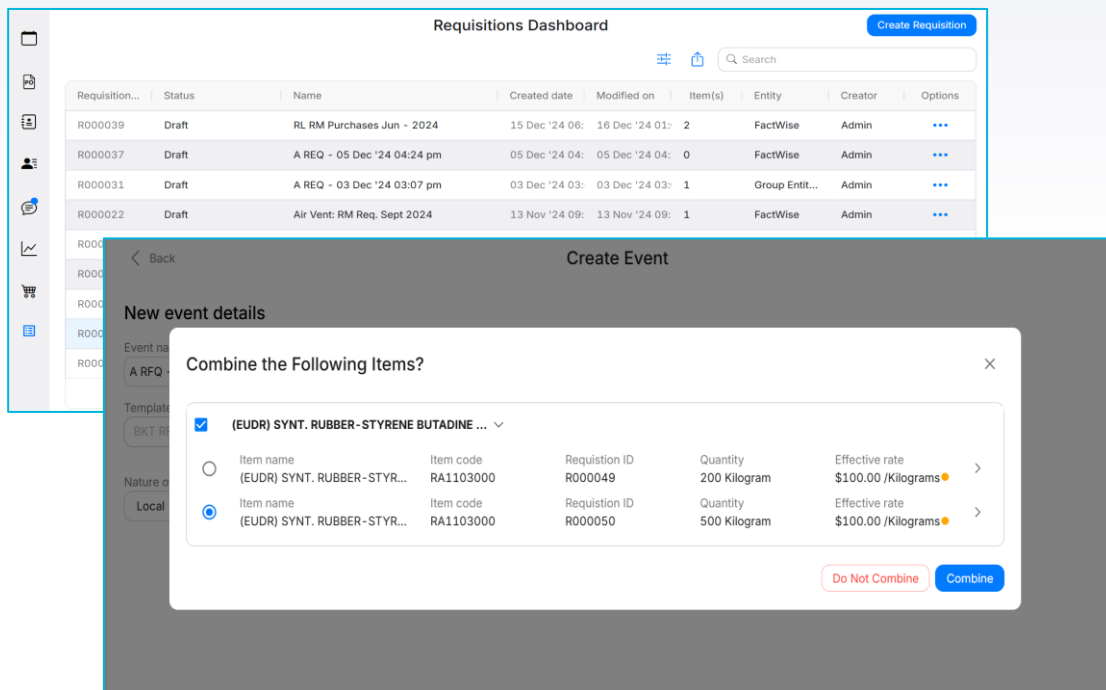

- Flexible approval and stage gating
- Auto reminders of document expiration
- Auto Verification of critical documents

The screenshots illustrate the multi-stage vendor onboarding process:

- Office Supplies Vendor Onboarding:** The main dashboard showing the BKT logo and a list of required documents: Finance, Financial Statements, Insurance Certifications, Tax Compliance Certifications, Bank Reference Documents, and ISO 9001 Certifications.
- Office Supplies Vendor Onboarding Documents:** A detailed view of the required documents, including a list of documents to be submitted (e.g., Financial Statements.xlsx, Insurance Certifications.xlsx) and a 'Download template' button for each.
- Add Identification for Demo Vendor:** A form to add identification for a demo vendor, including fields for Entity, Country, and Official ID.
- GST Details:** A form to add GST details, including fields for Name, Status, Nbn, and Address.
- Add ISO Certification for Demo Vendor:** A form to add ISO certification, including fields for ISO standard, Certificate number, Accreditation body, Certification body, and Active status.

Requisitions: sample screenshots

The image shows two screenshots from the FactWise Requisitions system. The top screenshot is the 'Requisitions Dashboard' which displays a table of requisitions. The bottom screenshot is a 'Create Event' modal showing a 'Combine the Following Items?' dialog.

Requisitions Dashboard Table:

Requisition...	Status	Name	Created date	Modified on	Item(s)	Entity	Creator	Options

Create Event Modal - Combine the Following Items?

The modal shows a list of items to be combined. The first item is selected with a radio button.

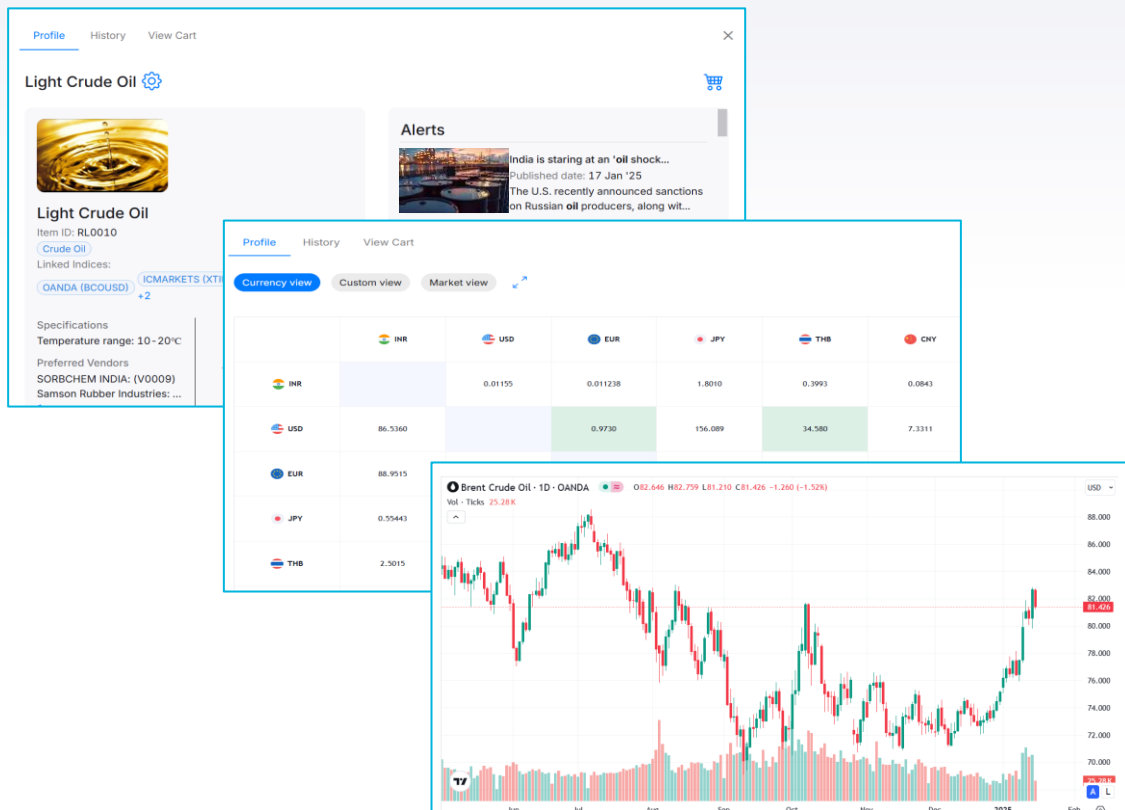

Item name	Item code	Requisition ID	Quantity	Effective rate
(EUDR) SYNT. RUBBER-STYRE...	RA1103000	R000049	200 Kilogram	\$100.00 /Kilograms
(EUDR) SYNT. RUBBER-STYR...	RA1103000	R000050	500 Kilogram	\$100.00 /Kilograms

Buttons: Do Not Combine, Combine

Key features:

- Combine items **across requisitions** for bulk discounts
- Customized templates** for each factory or request type
- Integrate requisitions with any **3rd party ERP instantly**

Item Analytics: sample screenshot

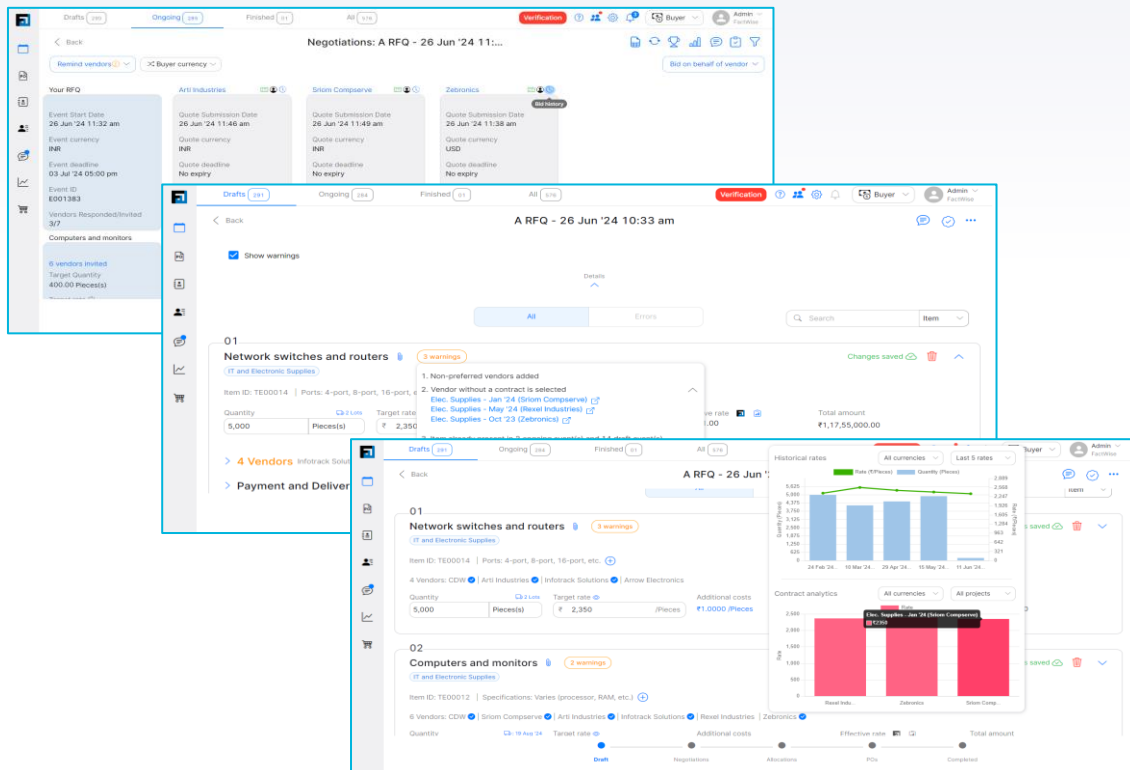

Key features:

- 5+ live commodity indexes and currency exchanges
- Critical live updates that affect commodity prices
- Integrated with RfQs and/or POs seamlessly

Customizable RfQ create and negotiate: sample screenshots

Key features:

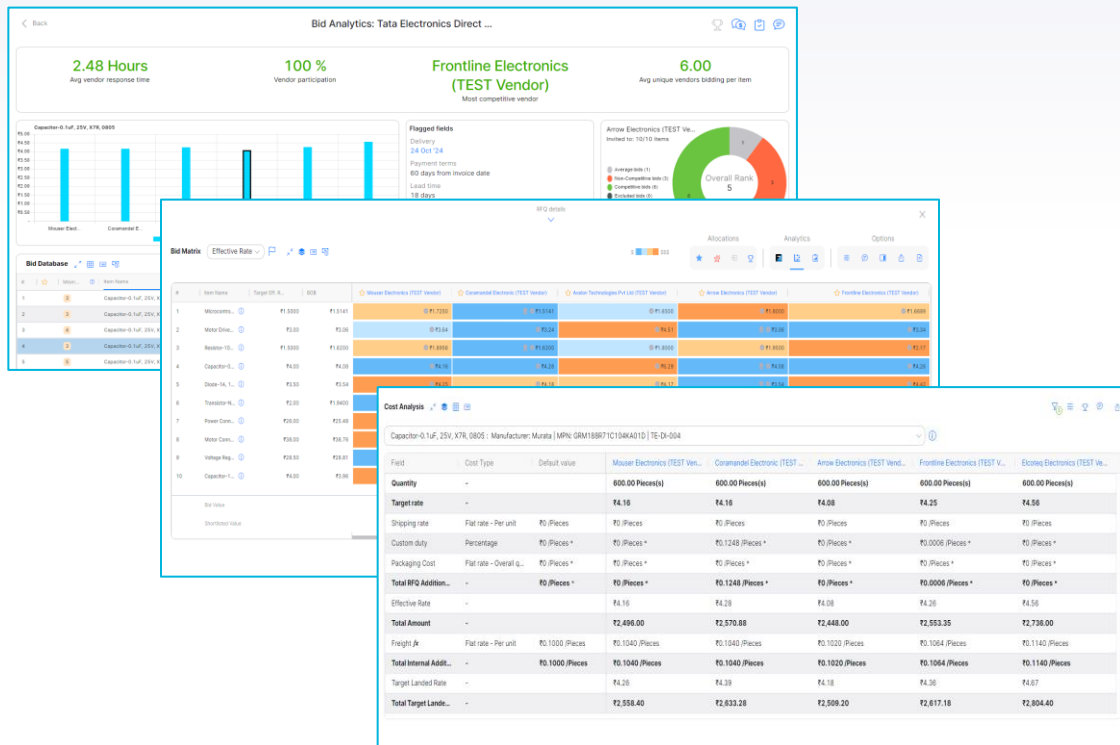

- Customizable auto-reminders per event
- Smart warnings to highlight cost savings opportunity
- Conduct **events at scale** (1000+ Items with 100+ vendors)
- Customize request to vendors as per specific needs

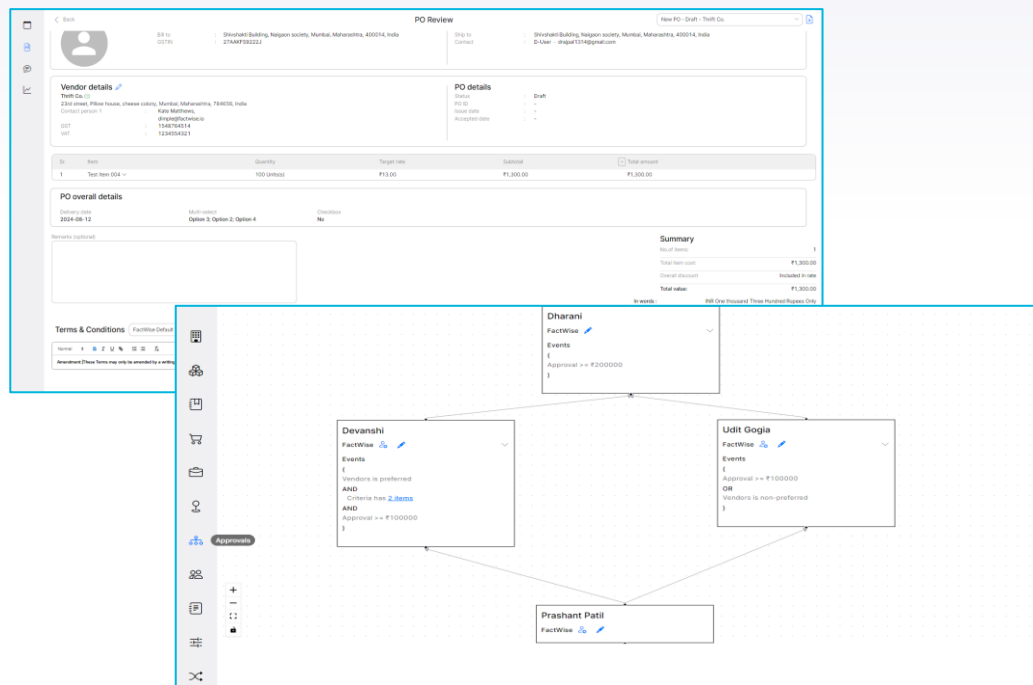

RfQ Analytics with adjustable landed costs calculation: sample screenshots

Key features:

- Define **custom formulas** to get final landed cost
- Automatically identify vendors based on **TCO, not just price**
- Create **all POs across multiple vendors** in 1 click

PO creation with open APIs and self-customizable approvals : sample screenshots

Key features:

- Ready made integration with any 3rd part ERP
- Create POs directly without creating a Rfx
- Build custom multi-stage approval hierarchy

Dual side PO management including changes in deliver schedules and PO amendments: sample screenshots

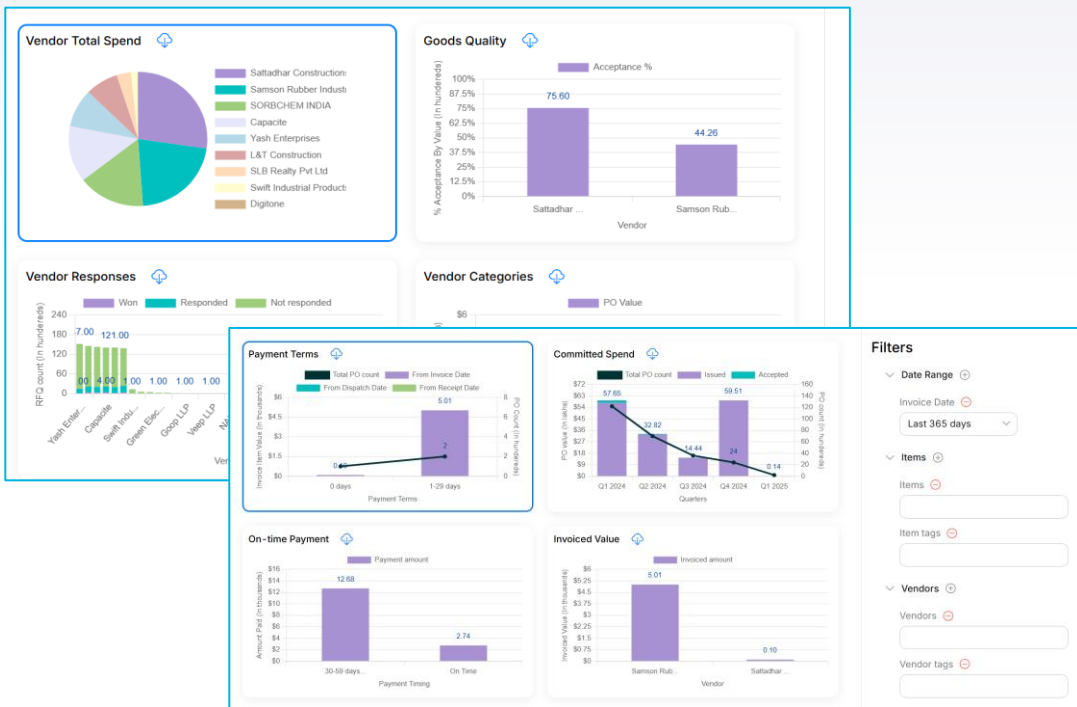

The image shows two overlapping screenshots of the FactWise PO management system. The top screenshot is the 'Revise PO' screen, which displays details for a PO from FactWise to Didac International. It includes fields for PO ID, PO Number, and dates. The bottom screenshot is the 'PO Summary' screen, which shows a table of PO items. The table has columns for Item ID, Item name, PO total quantity, PO pending quantity, Delivery schedule, PO rate, and PO total amount. The first item is 'Barcode scanners' with a quantity of 2000 Pieces(s) and a total amount of ₹40,00,000.00. The second item is 'Network switches and rout...' with a quantity of 200 Pieces(s) and a total amount of ₹4,70,000.00. A tooltip indicates that the requested quantity exceeds the PO's maximum quantity.

Item ID	Item name	PO total quantity	PO pending quan...	Delivery schedule	PO rate	PO total amount
TE00013	Barcode scanners	2000 Pieces(s)	2000 Pieces(s)	2 lots	₹2,000.00	₹40,00,000.00
TE00014	Network switches and rout...	200 Pieces(s)	150 Pieces(s)	1 lot	₹2,350.00	₹4,70,000.00

Key features:

- Allow vendor to provide **real time update on delivery schedule**
- Provide buyers opportunity to **rescind or cancel POs**
- Mandate vendors to **accept/reject POs** and all its terms

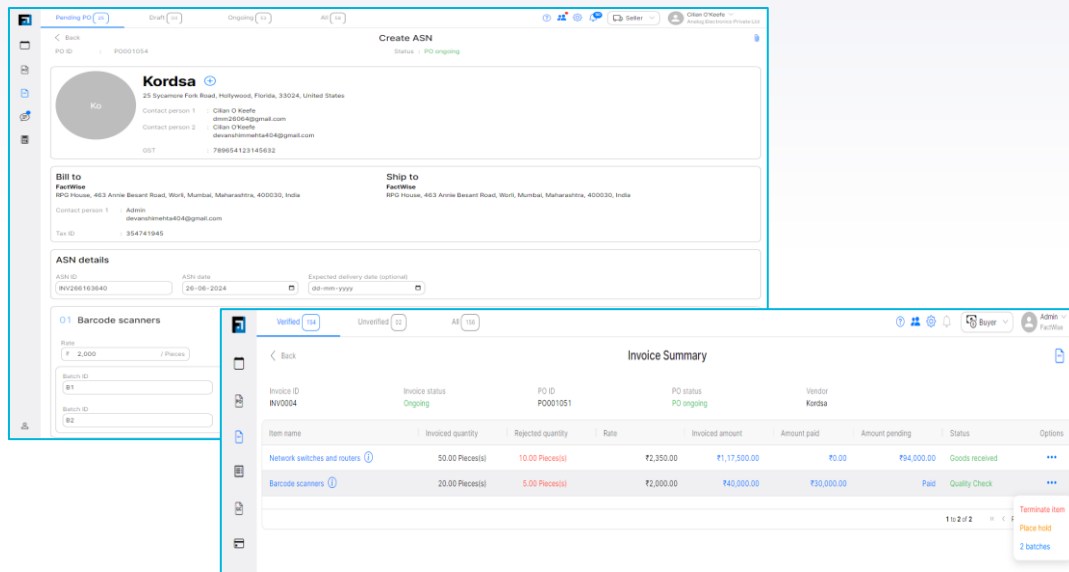

Adjustable historical & customizable analytics: sample screenshot

Key features:

- Pre-created graphs with flexible filters for users to review
- Ability to create your own custom dashboard for viewing
- Self-create graphs instantly and save them for future use

Self customized ASN/Invoice workflow: sample screenshots

Our Clients

We engage clients in competitive industries where physical products are created

Pharmaceuticals

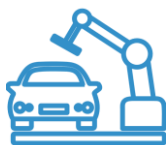

Electronics

Telecom

Chemicals

Automotive

Industrial Machinery

Food & Beverage

Hospitality

We engage with clients that have some of the most complex procurement requirements globally

In addition, we work with 2 Fortune 50 companies

Quotes from some of our clients

Comprehensive

The Factwise app is a great consolidation of features that provides the ability to send RFx's, assess pricing , allocation, PO & AP processing, etc. all in one app. Its an extremely efficient way to manage the materials buying process all under one application.

VP of Procurement
at Fortune 50
company

Customer first approach

Factwise has significantly improved procurement digitalization and automated quotation processes, enabling faster workflows, enhanced transparency, and data-driven decision-making @Syrma SGS. We like the platform's efficiency, seamless integration, and actionable insights, while suggesting enhancements like industry-specific solutions and advanced analytics. The solutions team is always listening to the voice of the customer and adapting the solution to serve their needs. With plans to expand into sales funnel tracking, Factwise is well-positioned to deliver comprehensive business solutions by integrating procurement, sales, and monitoring capabilities..

Kapil Maini
Chief Procurement Officer
Syrma SGS

Flexible

Factwise streamlines sourcing processes by automating non-value-adding activities, boosting efficiency and productivity. Their customizable GUI and dashboards empower users with tailored insights for smarter decision-making.

Sunil Kumar Injeti
Vice President
Spark Minda

Additional quotes from some of our clients

End-user focus

FactWise has done a great job at understanding the users. The thoughtfulness in the way it is created is impressive. Even the smallest details have been thought off to make sure the user experience is excellent. Our user adoption and attention to detail are the primary reasons for FactWise's success at our company

Sr. Director of
Procurement at
Fortune 50 company

Game-changing analytics

FactWise streamlined our quoting process, replacing manual tasks with efficient vendor and client interactions. Customizable and adaptable, it tailored to our complex workflow perfectly. Analytics stole the spotlight, offering diverse views for nuanced decision-making. FactWise harnessed transactional data, creating potent historical analytics for enhanced client value. Beyond tools, their attentive team unlocked the product's potential, ensuring personalized support.

Avaneesh Krishna
Enterprise IT Strategies
BPT

Easy to customize

FactWise has enabled us to make data driven decisions in procurement. This has increased the efficiency and compliance in the team and more importantly led to cost savings which is extremely important in our industry. Their standout analytics throughout the platform and the ability to easily customize the requirements based on our needs are absolutely nothing that we have seen before.

Pankil Dharia
Co-owner
Prasol

Even more quotes from some of our clients

Automation

FactWise excels in analytics-- their AI innovation transforms analysis into a user-friendly experience. Breaking free from old formats, we've minimized Excel dependency, witnessing a data-driven revolution that elevates our operations and business decisions. The proactive, attentive team ensures seamless implementation—a standout feature in this limitless solution.

Kinjal Shah
CEO
Gem Corp

Integrated Efficiency

Amkette sought an automated solution for their complex sourcing operation, focusing on procurement and vendor analytics. Initially designed for manufacturing, Factwise adapted swiftly, engaging Amkette's vendors. The platform's ongoing customization, including a built-in chat system, eased China communication challenges. Amkette aims to fully integrate Factwise into their operations this year.

Varun Bapna
Co-owner
Amkette

User Experience

Our manufacturing company uses the traditional standard ERP system. With Factwise integrating with our ERP, our purchasing has become informed, organized, and effortless. The intuitive and sleek UI was a standout feature. Factwise has been a game-changing addition for us.

Vivek Mehta
CEO
Driplex
